

SMALL LIVESTOCK TRAILERS

The **Nugent Small Livestock Trailer LLS84** is custom built, setting it apart from any other livestock trailer on the market. With full type approval (ECWVTA) any farmer will appreciate the attention to detail including the fully welded galvanised chassis, cross member frame bracing the trailer for added strength, durable tyres and commercial lights offering superior build quality, strength, longevity and excellent towing characteristics.

The trailer's steel sub frame is fully hot dip galvanized and can be fitted with a heavy duty steel fabricated dividing gate offering additional internal strength. Innovative features, combined with years of trailer design expertise have produced the perfect trailer when it comes to the transportation of livestock.

The Nugent Small Livestock Trailer includes a choice of two models either single or twin axle with maximum gross weights of 1400kg and 2000kg and the standard design includes plenty of desirable features.

Standard Features

- Market Leading Knott Brakes and Axles
